

# EARLY YEARS OUTDOOR WATER WALL BENCH

PT-SP-0011

Our Early Years Outdoor Water Wall Bench offers endless hours of interactive fun while playing a crucial role in a child's learning and development. It encourages independent experimentation, helping children to cultivate investigation skills through hands-on, sensory play.

Encourages  
sensory play!

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti.

Black UPVC half rounded guttering pipes are used to carry the flow of water. White UPVC half round stop end caps and brackets are used to secure the pipes to the structure and also cap off the pipes.
