

EARLY YEARS PLAYGROUND WATER RUN

PT-SP-0010

Our Early Years Playground Water Run offers an engaging and interactive experience that captivates children's curiosity and sense of adventure. As they pour water and watch it flow and trickle down the various channels, they are introduced to the fascinating principles of movement and cause-and-effect. This hands-on activity not only sparks their imagination but also provides a wonderful opportunity for experiential and sensory learning. The combination of natural wood and bright, high-density polyethylene creates an inviting, tactile environment that draws children in to explore and play.

Encourages
sensory play!

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti.
