All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

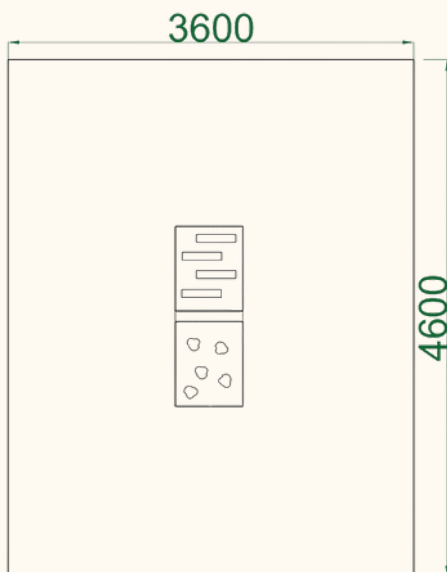

Artificial grass provides a soft and tactile surface, making it more comfortable when climbing. The grass is a fantastic 30mm entry range grass with 'Wave' shaped blades for great 'spring back'.

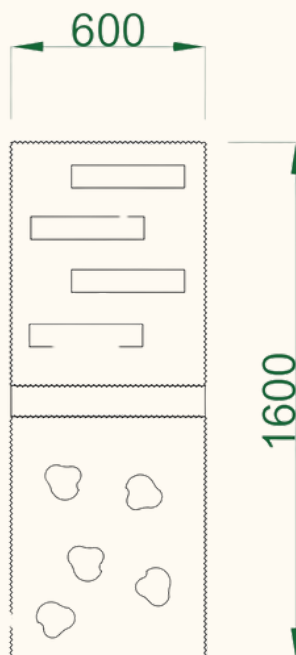

Multi-coloured, high quality plastic holding grips are used for the feature rocking climbing wall. The slip-resistant finish helps climbers reach the peak easier.
