

FOREST SCHOOL STORAGE

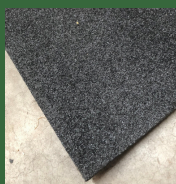

PT-SS-0076

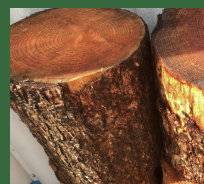

Store your resources in the enclosed shed, where our thoughtfully designed handy shelves make organization a breeze. Whether it's timber, gardening supplies, or other outdoor essentials, everything has its place, keeping your items secure and protected from the elements. On the open side of the unit, you'll find the perfect space for storing your logs. The open-front design not only provides easy access to your firewood but also promotes excellent air circulation.

Helps maintain a tidy playground!

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

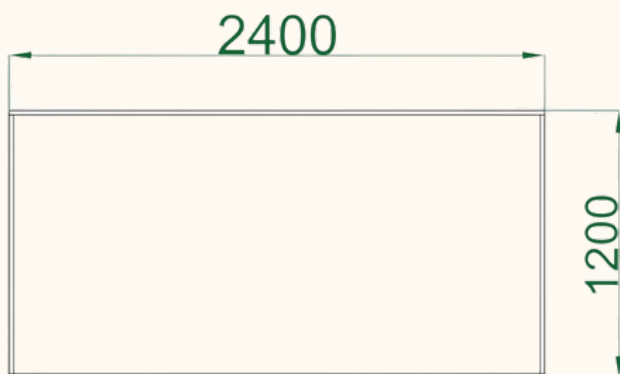

The premium grade polyester roofing felt has a fine asphalt mineral to upper surface, making it perfect for outdoor storage units and shelters. It has a life expectancy of approx. 10-15 years.

Larch is a natural softwood timber. Due to the nature of the wood, each piece will differ in size and shape, giving a rustic look. Wood is a living, organic material, which will respond to the environment overtime.
