

LOG STORAGE

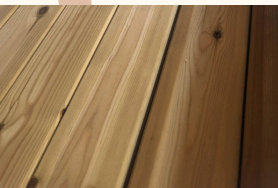

PT-SS-0075

Our Log Storage unit is expertly designed to provide an ideal space for stockpiling your logs, ensuring they remain dry and ready for use throughout the colder months. The open-front design not only makes it easy to access your logs but also promotes excellent air circulation, which is crucial for keeping the wood dry and preventing dampness. This storage solution is a must-have for any forest school area, offering both practicality and efficiency.

Helps maintain a tidy playground!

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.
