

OUTDOOR NATURE WOODEN BUG HOTEL

PT-SP-0026

The Outdoor Nature Wooden Bug Hotel is an interactive and educational playground feature specifically designed to spark children's curiosity about insects and the natural world. This innovative structure seamlessly integrates play with learning, providing children with a unique opportunity to explore the fascinating realm of bugs through a variety of hands-on and engaging activities. The use of various types of timber and unperforated pipes introduces multiple sensory elements, enriching the experience by offering different textures, shapes, and surfaces for children to explore.

Encourages
nature play!

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

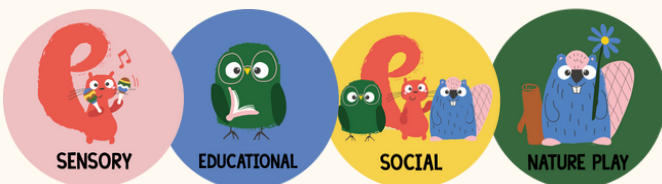

Robinia (Black Locust/False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

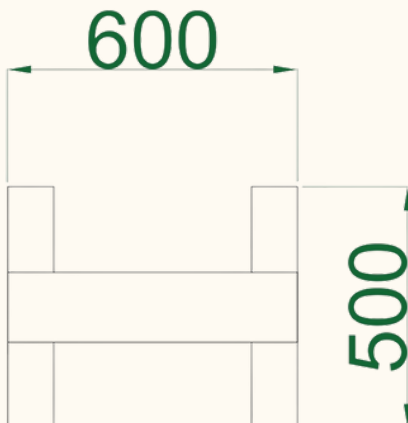

Unperforated twin pipe used in this product is manufactured from HDPE and complies with HAPAS BBA. The pipe is known to be strong, with a corrugated outer wall and smooth inner wall.
