

CONSTRUCTION LOOSE PARTS STORAGE

PT-SS-0072

The Construction Loose Parts Storage is a thoughtfully designed piece of timber furniture that combines functionality with aesthetic appeal, making it an essential addition to any playground or outdoor play area! Crafted from durable timber, this storage unit is not only built to withstand the rigors of outdoor use but also to add a natural, rustic charm to the environment. With ample storage space, this unit is specifically designed to house and organize a variety of loose parts commonly used in play, such as wooden blocks, planks, ropes, and even larger items like tyres.

Helps maintain a tidy playground!

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.
