All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

The premium grade polyester roofing felt has a fine asphalt mineral to upper surface, making it perfect for outdoor storage units and shelters. It has a life expectancy of approx. 10-15 years.

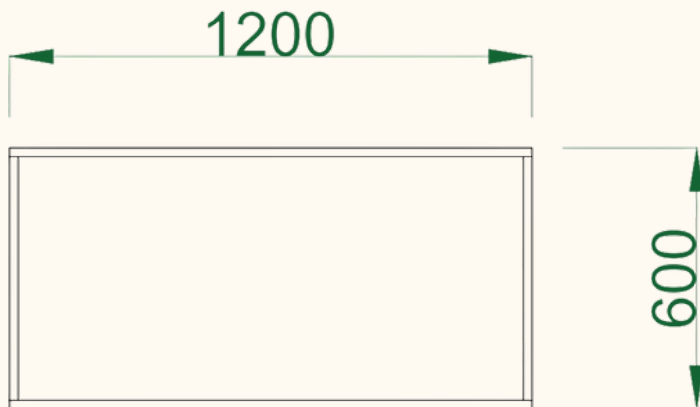

The canvas covers are a flexible, waterproof and strong PVC fabric, perfect for outdoor storage items. The fabric is lightweight and has a thickness of 0.49mm. Alternative colour options can be provided upon request.

Tamper proof, plastic fixing points are used to connect the canvas covers.
