

PLANTER TUNNEL

PT-AP-0052

The planter tunnel is an exciting and engaging versatile timber play structure, perfect for any outdoor space, combining structural elements of a tunnel with the beauty of plant life, creating a lush and immersive passageway. It provides a fun and safe environment where children can explore and crawl, fostering their sense of adventure. This product promotes physical development, as children navigate through the tunnel, they develop their gross motor skills, coordination, balance, and muscle strength in a fun way, whilst encouraging them to explore gardening and develop a love for nature.

This product encourages nature play!

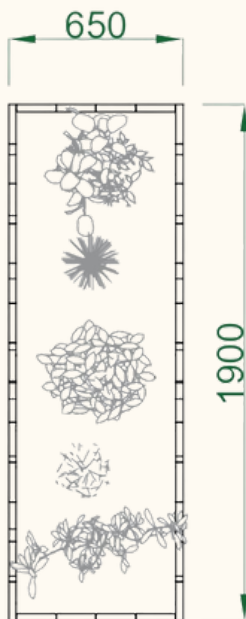

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

Unperforated twin pipe used in this product is manufactured from HDPE and complies with HAPAS BBA. The pipe is known to be strong, with a corrugated outer wall and smooth inner wall.
