

ROBINIA ARCHWAY (STANDARD)

PT-OS-0034

The Robinia archway serves as an inviting and whimsical entrance to any garden or playground path, a transition between different outdoor areas, or as a standalone feature. Given Robinia's exceptional resistance to rot and insects, the pergola would be highly durable, requiring minimal maintenance compared to other wood types.

Love this archway? Check out our other variations of this product.

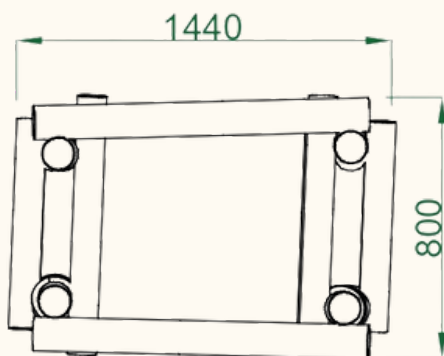

Robinia (Black Locust/False Acacia) is an extremely durable, rot resistant hardwood timber, with no need for treating. Each piece is sanded to create a smooth finish.

Synthetic Hemp also known as Polyhemp is ideal for outdoor projects as it does not rot, with its natural appearance but qualities of a synthetic rope this rope is used to add character to many of our products.
