

PLAYGROUND INTERACTIVE SAND PLAY WALL

PT-SP-0065

The Playground Interactive Sand Play Wall is a fantastic tool for sensory play, providing a dynamic and captivating experience for young children. It introduces a hands-on, interactive feature to your learning environment, allowing children to explore and learn through tactile play. This sand wall encourages children to pour sand and observe as it flows through various components, creating a mesmerizing journey that offers endless opportunities for exploration and discovery. The sight of sand cascading down different sections captures their attention, stimulating curiosity and promoting the development of fine motor skills.

**Encourages
Sensory Play!**

All our timbers are pressure-treated with a chrome-free and arsenic-free preservative which protects against decay and insect attack. Each piece is sanded to create a smooth finish.

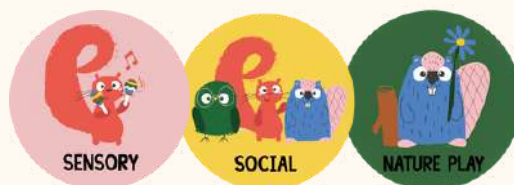

The clear panel is made from Polycarbonate which is a durable, lightweight plastic known for its optical clarity and high impact resistance, making it an ideal choice for applications requiring safety and durability.

HDPE sheets are thermoplastic materials that are used in many of our products. The versatile properties, including UV stability, make it resistant to fading, moisture, weather, stain and graffiti.
